King Brothers Nurseries

DANSVILLE, NEW YORK

ESTABLISHED 1878

JOSEPH GEORGE MARTIN KING, Sr. SIMON MARTIN, Jr.

Forty-Second Year Greetings

Friends and Customers :

We take pleasure in presenting this latest edition of our Annual Catalogue. We desire to thank our old customers for their liberal patronage in the past. You have made possible the growth and success of our nursery.

When our country went to war, we did our bit with the rest of folks, for three of us were in the service. Army life and experience in France have given us a new and broader outlook. We are all now back to work and assure our old and new customers that orders entrusted to us will receive our careful and personal attention.

From Small Beginnings in 1878

Why Tree Prices are Advancing

A survey of the nursery situation in the United States, since I have returned from Europe, reveals the fact that there are not more than half enough good trees to go around this year.

Nurserymen did not produce trees in large amounts during the war. The demand fell off. The young men at the business went where they belonged, into the army. Now there is a big demand for trees by all classes of people, fruit growers, farmers, villagers, and the man with a suburban garden. It takes three years to produce fruit trees of marketable size. Prices are going way up. Nurserymen cannot get their seedlings as formerly in sufficient quantity in France. I visited Orleans, Angers and Ussy, the source of our yearly supply. These poor people have been so upset by the long, dreary years of war that it will be several years before things get back to normal. In the meantime, we cannot either get the seeds or produce the seedlings here. We must rely on France. What is going to be the result? For the next several years there will be an under production of fruit trees. Everybody wants fruit trees now to help reduce the high cost of living. Fruitgrowers can congratulate themselves who have good trees planted.

We have more trees this year than we will have next. The price will go up next year. Based on my observations here and abroad, and my experience in the nursery business, my advice to friends and customers is to buy all the trees you can plant this spring and do not delay in placing your order. Make your home and surroundings a real place in which to live by planting fruit trees, berries, grapes and ornamental stock. You will, by so doing, improve your property, add to its value, provide yourself with pleasant recreation caring for your trees, conserve your health by a liberal supply of fruit and make the young folks contented to stay on the old farm and develop its latent possibilities.

The man who plants a tree is not only enriching himself but enriching his country. This is true patriotism.

MARTIN KING, JR.

Conditions of Sale

Prepaid Transportation

to all points in the following States on orders of \$7.50 or more.

New York, Massachusetts, Rhode Island, Connecticut, Maine, New Hampshire, Vermont, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia, Ohio, Indiana and Michigan.

To all other states East of the Rocky Mountains we pay one-half the Transportation Charges and our customers the other half. States West of the Rockies, we pay one-fourth Transportation Charges.

This applies to all orders of \$7.50 or more.

Customers pay the Express on orders of less than \$7.50. The Charge which you pay the expressman will run on these small orders from 25c to \$1.00, depending on the size of the bale and distance.

On all orders amounting to \$7.50 or more, we lay the stock down at your door, fresh from our nurseries, all transportation charges paid by us.

OUR GUARANTEE

First. We guarantee our trees to reach you in a live, thrifty condition, and to be free from all plant diseases.

Second. Should any tree not prove true to name as represented by us, we will make good the buyer's loss by reason thereof at any time within ten years from the date of purchase. In event we cannot agree, we shall each appoint one arbiter, who shall choose the third, and the award of the majority shall be binding upon both parties.

We were the first nursery firm in America to give this real guarantee of genuineness to fruit growers.

TERMS

Our terms are cash with the order. You may send us the money by Registered Letter, Post Office Money Order, New York Draft, or your own personal check.

RATES

Fifty trees or plants at hundred rates, provided there is not less than ten of any one variety.

ORDER EARLY—6% Discount

We allow 6% Discount on all Cash Orders sent us before March 20th. ORDER EARLY so we may reserve the trees to be shipped when you want them. After March 20th, 3% discount will be allowed.

AKIN—A beautiful, dark red winter apple, of good quality. Fine for dessert and fancy trade.

ALEXANDER—A very large apple, attractive red, coarse in texture, medium in quality, suitable for culinary rather than dessert use. Ripens from September to November.

ARKANSAS (Mammoth Black Twig)—A late keeping winter apple, rather large, of good red color and good quality.

BALDWIN—The Baldwin is a bright red winter apple, above medium in size or large, and very

good in quality. It is a favorite market variety because of its desirable season, good size, attractive red color, and good quality.

BANANA (Winter Banana)—A very large, clear, pale yellow apple, with a beautiful pinkish red blush, characteristically aromatic, of good dessert quality.

BEN DAVIS—The tree is hardy, healthy and vigorous, comes into bearing at an early age and bears annually and abundantly. The fruit is beautiful in appearance but of fair quality.

Apples—Continued

BOUGH (Sweet Bough)—The Bough is one of our finest summer apples, having all the good qualities which would recommend the fruit for general cultivation.

CHENANGO—Fruit is yellowish white, striped with red. Fine for either dessert or culinary use.

DELICIOUS—A comparatively new variety of tested merit. It has its own distinctive shape and dark red color shading to golden yellow at the blossom end. The flesh is fine grained,

a solid deep red color, stands handling well and a good keeper.

GRAVENSTEIN—Fruit large; red, striped with yellow. Crisp, tender and of delightful flavor, fine for culinary use.

GRIMES' GOLDEN—This is a beautiful rich golden apple of splendid quality for dessert or culinary use, of rich sub-acid flavor.

HUBBARDSTON NONSUCH (American Blush)—This apple is one of the earliest bearers we have. It ripens between the fall varieties and the late ripening winter apples. Its quality is of the very best, crisp, tender and rich; attractive pale red color.

McINTOSH

juicy and melting. It is a good cropper and a good shipper. The trees are hardy and vigorous, bear heavily and regularly.

EARLY HARVEST—One of the earliest summer apples, of medium size, pale yellow, sub-acid flavor, excellent for dessert or culinary use.

ESOPUS SPITZENBERG—A large red striped apple, sub-acid in flavor, the standard of excellence of the Baldwin class as regards quality. Splendid for dessert or culinary use.

FALL PIPPIN—A large yellowish green apple, pleasant sub-acid flavor, fine quality for kitchen or market use.

FAMEUSE (Snow Apple)—A handsome, small, deep red apple with white flesh of distinctive and delicious flavor.

GANO—Similar to Ben Davis but of better quality. Less striped in appearance, has more of

JONATHAN—Bears early and abundantly; fruit of medium size, deep red and yellow, with flesh tender, juicy and rich.

McINTOSH RED—Fruit medium sized, of attractive red color; flesh white and of excellent flavor, tender and juicy.

MAIDEN'S BLUSH—A beautiful apple of pale lemon color with crimson cheek; flesh white, sprightly, of fair flavor and quality.

NORTHERN SPY—The standard of excellence for quality; commands the best price in the eastern market. Fruit large, red and of delightful flavor; keeps well, ships well, splendid for both dessert and culinary use.

NORTH WESTERN GREENING—A very large, round, greenish yellow winter apple, splendid for dessert use. It is a fine keeper and shipper.

OLDENBURG (Duchess of Oldenburg)—Red striped and white in color, of splendid flavor;

KING BROS. NURSERIES **DANSVILLE, N.Y.**

Apples—Continued

greatly esteemed for cooking. It ripens early and can be classed as a summer or early fall apple.

OPALESCENT—This is one of the most beautiful apples grown and we know of no variety better fitted to compete with the showy fruit from the Northwest than this variety.

SMOKEHOUSE—A pleasant flavored dessert apple; fruit medium in size, yellow and red color.

STARK—Fruit large to medium, pale green becoming yellow and blushed and mottled with red, striped with darker red; tender, juicy,

A Baldwin Apple Orchard—worth \$1,000.00 per acre.

RAMBO—Medium sized, yellow streaked with red, flesh tender and crisp.

RED ASTRACHAN—A beautiful early summer apple of medium size; yellow covered with light and dark red; highly esteemed for home use.

RHODE ISLAND GREENING—Fruit large, light greenish yellow, rich, tender and juicy; excellent for cooking; a valuable commercial sort.

ROME BEAUTY—A handsome red apple, now being extensively planted even as far north as New York, on account of the early bearing habit of the trees and the excellent quality of the fruit, combined with its good keeping qualities.

ROXBURY RUSSET—A popular russet apple of medium size, excellent keeper.

sprightly, mild sub-acid flavor; it is a good keeper.

STAYMAN'S WINESAP—A dark red apple with indistinct stripes, absolutely the best of all the Winesaps. Flesh firm and crisp, of the very finest quality.

SUTTON BEAUTY—Its uniform size, symmetrical shape, beautiful color and pleasant quality combine to make Sutton an excellent dessert apple.

TOLMAN SWEET—Esteemed for pickling, boiling and baking. A large yellow apple of excellent quality.

TOMPKINS KING—Fruit large, beautiful, of excellent quality; commands the highest price in the fall.

TWENTY OUNCE—Fruit very large, yellow striped with red; flesh firm, rich and sweet.

Apples—Continued

WAGENER—Bears young and is an apple of superior excellence. Fruit medium to large, deep red in the sun; flesh firm, well flavored, sub-acid.

WEALTHY—Tree a medium grower, with moderately stout curved branches; an early and abundant bearer.

WINESAP—One of the oldest and most popular varieties in America. Fruit medium sized and deep red, good quality.

WOLF RIVER—A valuable hardy variety. Tree a very good grower and early bearer. Fruit sells well because of its attractive appearance; it is of the largest size and of fair quality.

YELLOW NEWTOWN (Albemarle Pippin)—It is a large yellow apple of excellent quality and a good keeper.

YELLOW TRANSPARENT—An early and prolific bearer. Fruit medium sized, slightly con-

ical, pale yellow color; flesh tender, juicy, sub-acid. One of the best summer apples.

YORK IMPERIAL—A beautiful red apple of excellent flavor. Splendid shipper.

Crab Apples

Same Price as Standard Apple

GEN. GRANT—Large; yellow striped with dark red; mild sub-acid.

HYSLOP—Large; very dark brilliant red; vigorous and hardy.

TRANSCENDENT—Fruit from one and one-half to two inches in diameter. Yellow, striped with red; juicy, crisp and the best of its class for cider and all other purposes. Bears young and produces immense crops annually.

Dwarf Apple Trees

Prices on Dwarf Apple Trees

	Each	Per 10
First Class, two years, 4 to 5 ft.....	\$.85	\$8.00

Dwarf apples are especially desirable for village or city gardens. They bear very early and require very little space to develop. We produce these dwarf trees by budding the varieties on doucin and paradise stocks imported from Europe. The village and city man with a small garden will enjoy growing a few select trees of the following varieties: Duchess of Oldenburg, Fameuse, McIntosh, Red Astrachan, Wealthy, Winter Banana, Yellow Transparent.

Peaches

	Height	Caliper	Each	Per 10	Per 100
Bearing age	7 to 8 ft.	1 to 1½ inch, XXXX	\$1.25	\$12.00	
Largest size, 1-year	5 to 6 ft.	9-16 inch and up, XXX	.80	7.50	60.00
Medium size, 1-year	4 to 5 ft.	7-16 to 9-16 inch, XX	.75	7.00	55.00
Smaller size, 1-year	3 to 4 ft.	5-16 to 7-16 inch, X	.70	6.50	50.00

BELLE OF GEORGIA—Fruit large, white fleshed, firm and delicious; color red and white; free stone; ripens early.

CARMAN—A large, oval shaped peach of yellowish white color; flesh creamy white, tinged slightly with red; excellent flavor; free stone; ripens early.

CHAIR'S CHOICE—Form round, of large size; color of skin yellow with red cheek; flesh yellow, of fair quality; free stone; ripens late.

CHAMPION—One of the leading white peaches; fruit large, creamy white, of highest quality. It is a free stone and ripens early.

CROSBY—Semi-cling stone, medium sized, a good bearer, yellow flesh and very good quality; ripens very late.

EARLY CRAWFORD—Its quality is unsurpassed. A yellow fleshed peach, free stone; ripens middle season.

ELBERTA—It is extra large; color golden yellow shading to red; flesh yellow, firm, juicy and excellent; free stone; ripens middle season.

FITZGERALD—A large, golden-yellow peach of good quality; hardy in bud and wood; free stone; ripens early.

FOX SEEDLING—A free stone, of medium size, white fleshed and medium quality; ripens late.

GREENSBORO—Extremely hardy, and one of the earliest sorts; greenish white shaded with red; juicy and good; semi-cling stone.

Peaches—Continued

ELBERTA

HALE—Of recent introduction. Similar to Elberta.

ROCHESTER—A new, very early, yellow fleshed peach of the Crawford type.

HILEY (Belle)—Of excellent quality; flesh creamy white; free stone; ripens early and is a good shipper.

KRUMMEL OCTOBER—A very big, yellow peach, of the highest quality; free stone; ripens very late.

LATE CRAWFORD—A large, handsome peach, the standard of excellence for quality. Delicious flavor; yellow fleshed; free stone; ripens late.

MOUNTAIN ROSE—A white peach, very good for home use; free stone; medium sized; good bearer and fine quality; ripens early.

MCNEIL'S EARLY (Trade Mark)—Originated at Dansville, the original tree has a remarkable record for hardiness. It has produced a full crop of the very finest peaches, ripe August 1st, when other varieties failed, having been frozen out by our bitter cold weather with the thermometer 15 degrees below zero.

CAPT. EDE—A handsome yellow peach, with a faint blush of carmine, resembles Elberta. Fine quality and a splendid shipper. Early Sept. Freestone.

HEALTH CLING (Clingstone)—Very large; flesh white, juicy and melting. Good keeper and shipper. Excellent quality and flavor. October.

HILL'S CHILI (Freestone)—Medium size; oval; skin yellow, shaded with dark red; flesh half melting, sweet, of medium quality, but hardy and a good bearer. September.

IRON MOUNTAIN (Freestone)—Fruit very large; white; quality good. Very hardy in bud; white inside at pit. September.

KALAMAZOO (Freestone)—Grows to medium size, color yellow with red cheek, yellow flesh, moderately tender and juicy, flavor fairly sweet. Early September.

LEMON CLING (Clingstone)—Tree erect and vigorous with dark green foliage.

TRIUMPH (Semi-Cling)—A valuable commercial variety to follow Alexander. The peach is yellow with sweet, rich flavor. Early August.

WONDERFUL (Freestone)—Rich, golden yellow color, nearly covered with bright crim-

Peaches—Continued

SALWAY

son. Very handsome and attractive. Flesh yellow, rich and highly flavored. Middle of October.

EARLY RIVERS (Freestone)—Light straw color, with delicate pink cheek; flesh juicy and melting, with very rich flavor. Early August.

OLD MIXON (Freestone)—A white fleshed peach, with a red cheek, presenting a good appearance in the basket.

NIAGARA—The flesh is yellow, tender, rich and juicy, ripening clear to the pit. It is a free stone, and ripens early, about one week before Elberta.

SALWAY—An extra large, very late peach, of high quality and established merit.

SMOCK'S (Beer's Smock)—This is an old standard variety, highly prized and valuable for either home use or market.

YELLOW ST. JOHN—It is large and handsome; flesh yellow and juicy and of delightful flavor; ripens early.

A well-cared for Peach Orchard—Squash grown between the trees.

Standard Pears

Prices on all the varieties

ANJOU (Beurre d'Anjou)—A late fall pear, of the highest quality; large, yellowish green with blushes of pale red and russet.

BARTLETT—It is a large, crisp pear, yellow when ripe, juicy and melting and of delicious flavor; ripens about the first of September.

BEURRE BOSCH—Greatly esteemed. A large yellow pear; flesh white, rich and delicious.

CLAPP'S FAVORITE—Pale lemon color with bright blush; unexcelled for flavor and high quality.

DUCHESS d'ANGOULEME—A late pear, of fair quality; very large, greenish yellow with dull red cheek.

FLEMISH BEAUTY—The fruit is of large size, greenish yellow and brown; it ripens in September.

KIEFFER—Tree has large, dark green, glossy leaves and is of itself very ornamental. It is an early and prolific bearer, the best grower we have; extremely hardy; never blights.

LAWRENCE—Greenish yellow marked with russet; flesh white and of fine quality.

SECKEL—A small pear of yellowish russet color with a spicy, honeyed flavor of supreme excellence.

SHELDON—Of medium size and roundish, greenish russet and brown color; flesh somewhat coarse but melting, juicy and of excellent flavor.

WILDER—A summer pear, medium sized, small cored, tender and juicy.

GARBER—A good market and canning pear, large, yellow, with red cheek.

WINTER NELIS—A medium-sized yellow pear, often russeted. Flesh is yellow, fine grained, sweet, of very highest quality.

KOONCE—A very popular early variety. Fruit medium to large, yellow, one-half nearly covered with red.

LINCOLN—The Lincoln is a very large, clear yellow pear, with bright red cheek on the sunny side; juicy, high quality.

FLEMISH BEAUTY

Dwarf Pears

Dwarf pears are produced by budding pear on quince roots. They make trees of heavy, stocky bodies, but they do not grow tall. The fruit is the same size as that produced on standards, and the trees are inclined to bear younger. We offer the same dwarf varieties as listed under Standard Pears.

Price: 4 to 5 ft., 80c each; \$7.50 per 10; \$62.50 per 100. 3 to 4 ft., 75c each; \$7.00 per 10; \$57.50 per 100.

JAPANESE SORTS

ABUNDANCE—Fruit large and beautiful; amber turning to bright cherry red. Flesh yellow, tender, juicy and rich.

BURBANK—Fruit very large; clear cherry red; flesh deep yellow, sweet, with a very agreeable flavor.

CLIMAX (Very Early)—A large, dark red plum marked with faint radiating streaks.

OCTOBER PURPLE (Late)—Fruit frequently measures seven inches in circumference.

SATSUMA (Mid-season or later)—A fine plum, with solid flesh and a purplish crimson color

from pit to skin; juicy and of fine quality. September.

RED JUNE—Medium to large. Fruit deep vermilion red, makes a fine appearance. Flesh light, lemon yellow, firm, delightful.

SHIRO (Very Early)—A brilliant, transparent, yellow plum; large, round, tapering slightly at the end, covered with thin bloom and becoming deeper yellow as the season advanced.

WICKON (Early)—It is of large size, handsome color and distinct form, firm flesh, and peculiar flavor, generally considered pleasant. August.

EUROPEAN PLUMS

ARCTIC (Moore's Arctic)—Color dark purple; flesh light yellow, juicy, coarse and fibrous but tender, sweetish, mild, of fair quality.

BRADSHAW—Fruit very large and of the highest quality; dark violet red; flesh yellowish green, juicy and pleasant.

GERMAN PRUNE—A large, long, oval variety, much esteemed for drying; color dark purple; of very agreeable flavor.

GOLDEN DROP (Coe's Golden Drop)—Fruit ripens very late; golden yellow color with a faint bronze blush; flesh light golden yellow, juicy.

GRAND DUKE—The fruit is of large size, of dark reddish purple overspread with thick bloom.

GREEN GAGE (Reine Claude)—Fruit ripens about mid-season; color yellowish green. Should be in every home collection.

GUEII—The fruit ships well, ripens about mid-season; color dark purplish black, overspread with thick bloom.

IMPERIAL GAGE—Fruit dull greenish yellow in color; flesh golden yellow, juicy, firm, but tender, sweet, mild, of excellent quality.

LOMBARD—One of the best and most extensively planted varieties of the East. Fruit medium, round, oval, violet red, juicy, pleasant and good.

MONARCH—Fruit ripens late, of dark purplish red color, juicy, somewhat fibrous, tender, sweet next to the skin, pleasantly tart toward the center, aromatic.

POND SEEDLING (Hungarian Prune)—Distinguished for its large size, form and color.

SHIPPER'S PRIDE—A large, blue plum, very hardy and productive.

SHROPSHIRE DAMSON—The fruit is of good size; color purplish black. Flesh golden yellow, juicy, firm and tender, agreeably tart at full maturity.

YELLOW EGG—The largest and the handsomest of the yellow plums.

YORK STATE PRUNE—More productive than German Prune and of as good quality.

MOORE'S ARCTIC

Cherries

SWEET SORTS

BING—A comparatively new variety. Fruit delicious, black when ripe. Tree a very strong grower, bears early and abundantly.

BLACK TARTARIAN—A standard sort. Very large; purplish black; mild and pleasant. Tree a vigorous grower and immense bearer.

GOVERNOR WOOD—Very large, light red, juicy, rich and delicious.

LAMBERT—One of the largest of all; almost jet black when ripe. Tree a strong grower and heavy bearer.

NAPOLEON—Very large, pale yellow or red; very firm, juicy and sweet; very productive; one of the best.

SCHMIDT'S BIGARREAU—A very large, black, sweet cherry of the finest quality; coming to be known more and more for its superior excellence and worth. Ripens July.

WINDSOR—Large, dull red, almost liver colored; a very hardy variety; ripens late.

YELLOW SPANISH—Large, pale yellow, firm flesh and excellent; light colored cherry. Ripens the last of June.

SOUR SORTS

BALDWIN—Fruit large, dark, transparent; excellent grower; hardy. Ripens in June.

DYEHOUSE—A very early and sure bearer, ripens a week before Early Richmond. Excellent quality.

ENGLISH MORELLO—Medium to large; blackish red, rich, acid, juicy and good; very productive. Ripens late, best kind to follow Montmorency.

EARLY RICHMOND—Trees grow rapidly with a spreading head. Hardy everywhere. Fruit of medium size, dark red; melting, juicy, sprightly, acid flavor. Ripens early.

LARGE MONTMORENCY—A large red, acid cherry, larger than Early Richmond and fully ten days later. The leading commercial variety.

MAY DUKE—A rich, dark red, sub-acid cherry. The tree is a strong grower and early bearer.

Quinces

Prices of Our Select Varieties of Quince Trees

	Height	Caliper	Each	Per 10	Per 100
Largest size	4 to 6 ft.	⅝ inch and up	\$.85	\$ 8.00	\$ 70.00
Medium size	3 to 4 ft.	½ to ⅝ inch	.80	7.50	65.00

CHAMPION—A prolific and abundant bearer; quality fine and a long keeper; bears extremely young.

ORANGE—A large, golden yellow fruit of unsurpassed quality.

MEECH—The fruit is large, lovely orange yellow, of great beauty and delightful fragrance.

BOURGEAT—Fruit of largest size, round, rich golden color, smooth, very tender when cooked.

Nut Trees

AMERICAN SWEET CHESTNUT—Valuable as a nut producing tree and for timber.

4 to 5 ft., 85c each.

ENGLISH WALNUT—Fruit in great demand and planted extensively of late years. A tall growing tree with spreading head; produces large crops of thin shelled nuts.

3 to 4 ft., \$1.00 each.

BUTTERNUT—A native tree, of well known worth.

4 to 5 ft., 75c each.

WALNUT, BLACK—The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

4 to 5 ft., 75c each.

Apricots

	Each	Per 10
4 to 5 ft.....	\$1.00	\$9.50

ALEXANDER—Medium sized, orange yellow color, of good quality for dessert; ripens medium season.

MOORPARK—Very large, orange red color, free stone, of excellent quality.

HARRIS—Medium sized, orange red, good quality; ripens very early.

ORANGE—Medium sized, orange red color, semi-cling stone.

Currants

Hardy, easily cultivated, standing neglect well and readily responding to cultivation and generous treatment, indispensable for table use, jellies, etc., **no garden is complete without them**, and large quantities are required for market. A well kept plantation will yield 4,000 pounds of fruit to the acre, and they may be planted to advantage between fruit trees in the orchard and a large yield secured at small cost.

Set four feet apart in rich ground, mulch heavily, prune out all old wood.

Prices on all varieties of Currants.

Strong, healthy, two year vines: each 30c, \$2.50 per 10, \$20.00 per 100.

CHAMPION—One of the finest and best black currants of European origin. Large in bunch and berry and of fair quality. A very strong, robust grower.

CHERRY—Berries sometimes more than half an inch in diameter, bunches short, vigorous and productive when grown on good soils and well cultivated.

FAY'S PROLIFIC—The leading market variety. Extra large stems and berries, uniform in size, easily picked, exceedingly productive. No variety ever made as quick a jump into popular favor, the demand most seasons being in excess of the supply.

NORTH STAR—Red. A very vigorous grower. Extremely hardy, productive and very mild in flavor.

PERFECTION—New, red. A cross between Fay's Prolific and White Grape, but superior to either in size of bunch and berry, quality and productiveness. The only small fruit ever awarded the Gold Medal by the Western New York Horticultural Society.

RED DUTCH—An old, well-known sort, good quality berry; medium, long bunch. Very productive.

RED CROSS—A fine red currant of large size, long clusters and mild flavor. Vigorous and very productive.

VERSAILLES—Very large, red; bunch long, of great beauty and excellent quality; one of the finest and best.

VICTORIA—Large, bright red, bunches extremely long; berries medium size, of excellent quality. Good erect grower, very productive. Ripens late, making it one of the most valuable sorts.

WHITE GRAPE—Large, mild, of excellent quality and productive. Best of the white varieties for home use and market.

WILDER—One of the largest red currants known and of good quality; mild sub-acid. The bush is a strong, vigorous grower and holds its foliage so well and fresh that its fruit, though ripening early, is kept perfect until late. Very prolific. One of the best.

Garden Roots

ASPARAGUS

Price: \$1.75 per 100.

PALMETTO—Early and very productive.

CONOVER'S COLOSSAL—Of superior excellence; remarkably tender and fine flavored.

RHUBARB

Price: 10c each; 95c per 10; \$7.00 per 100.

EARLY SCARLET—Early and good.

MYATT'S LINNAEUS—Large, early, tender, excellent.

Grapes

Prices on All Varieties of Grapes, strong healthy plants, 50c each, \$4.50 per 10.

Grapes come quickly into bearing, yielding fruit oftentimes the second year after planting; require but little space, and when properly trained are an ornament to the yard, garden or vineyard. They thrive everywhere, but do best on dry soil in a warm, sunny exposure.

We offer the following complete assortment of the best varieties:

DELAWARE

AGAWAM—Dark red; large bunch and berry; productive.

BACCHUS—Small, black, good quality.

BARRY—Black, attractive, high quality.

BRIGHTON—Bunches large, berries of medium size, dark red; flesh sweet, tender and of the highest quality.

CAMPBELL'S EARLY—Vines vigorous and hardy; berries ripen earlier and are of better quality than Concord. Highly recommended everywhere.

CATAWBA—An excellent red grape; ripens late.

CLINTON—Black small berries; very late; popular wine grape.

CONCORD—A popular variety where the choice kinds fail to ripen; universally healthy, vigorous and productive; flesh moderately juicy and sweet. The leading standard variety.

COTTAGE—A black grape of good quality, valuable for market; vine a rank grower, healthy and hardy.

DELAWARE—One of the finest grapes; bunches small, compact, shouldered; berries rather small and round; skin thin, light red; flesh very juicy, without any hard pulp, with an exceedingly sweet, spicy and delicious flavor. Vines moderately vigorous, very hardy and productive.

DIANA—Bunches a little above medium size, compact; berries large, bright red, very juicy and sweet, with distinct spicy, refreshing flavor; vine a vigorous grower and bears well.

DUCHESS—Bunch medium to large, berries round, greenish white. Ripens with Delaware.

EARLY VICTOR—One of the best early grapes. Pure in flavor, exceedingly sweet, sprightly and vinous. Adheres firmly to the bunch.

EARLY OHIO—Black, good quality.

ELVIRA—Greenish white, slightly tinged yellow, good quality; healthy, vigorous, hardy, productive.

Grapes—Continued

NIAGARA

EMPIRE STATE—Bunches large, berry medium, color white with very little tinge of yellow; flesh tender, juicy, rich, sweet and, sprightly. Vine very hardy and productive.

GREEN MOUNTAIN—Greenish white, sweet and of excellent quality.

HARTFORD—A good early black grape. Ripens four or five days earlier than Concord.

HERBERT—Fine quality, large deep red, a good keeper.

IVES—Hardy and productive, fair quality.

JEFFERSON—Large, light red berries; flesh meaty or solid, fine for market.

LUCILE—A dark red grape, unsurpassed in vigor and hardiness.

MOORE'S EARLY—An early grape, similar to Concord.

MOYER—Vine hardy, healthy and productive; bunches and berries rather small. Resembles Delaware in appearance; ripens early.

MARTHA—Bunch of good size and berry large, of pale green or light color; buttery, sweet, juicy and sprightly.

MOORE'S DIAMOND—A prolific bearer, bunches large and compact, color delicate greenish white, pulp tender and juicy with very few seeds. Ripens about two weeks earlier than Concord.

NIAGARA—Vine a remarkably strong grower and hardy; the leaves are thick and leathery and dark glossy green; bunches very large and uniform and very compact. Quality the best, very little pulp. Melting and sweet.

POCKLINGTON—Strong grower, never mildews, is a light golden yellow; clear, juicy and sweet to the center. Bunches large, berries round and very large, and thickly set.

SALEM—Handsome red, splendid for table or wine.

VERGENNES—Free from mildew, very productive; clusters large, berries large, color light amber; rich and delicious; a splendid grape for arbors.

WORDEN—A seedling of Concord which it greatly resembles in appearance and flavor, but the berries are larger.

WYOMING RED—An early red grape, desirable for the garden and vineyard; bunch and berries small to medium with a sweet flavor.

CONCORD

Raspberries

Prices on all varieties

Strong, Healthy Plants; \$1.75 per 25, \$6.00 per 100, \$40.00 per 1000.

GIBRALTAR RASPBERRIES

COLUMBIAN—Dark red or purple, similar to Shaffer's Colossal, but a much better grower and bearer, larger and firmer. The most prolific raspberry known and best for canning and drying. Although red, it propagates from the tip only and never suckers. Late.

CUMBERLAND—New. The largest black raspberry known, averaging 7-8 inch in diameter. Good and firm as the Gregg, but bush is hardier, having successfully withstood 16 degrees below zero. A strong, vigorous grower and wonderfully productive. Midseason.

EUREKA—An excellent blackcap; a great producer.

GIBRALTAR—A new variety from Canada. We are the introducers of this splendid new Canadian sort. It is thought to be a cross between Hilborn and Gregg, in color and productiveness, resembling the latter. Among its exceptional qualifications: hardiness, productiveness and strong growth of canes. We urge every one of our patrons to order a few of these plants this season.

ROYAL PURPLE—A new variety that is being extensively planted by the leading berry men throughout the country. It is fully as good, if not better, than Columbian. The plants are strong, sturdy and almost thornless. Its great point is its hardiness. Has endured 35 degrees below without injury. An excellent shipper, excelling all other kinds in this respect. Get in on the ground floor. Plant Royal Purple now.

GREGG—Very large and late blackcap. Bush a strong, upright grower, productive and very desirable for market and home use.

JUNE—This is the new early red Raspberry lately originated by the New York State Agricultural Experiment Station. It is a cross between the old Loudon and Marlboro. It has been grown long enough to show its general adaptability and remarkable characteristics. There is no other early red raspberry that can equal or approach it in its large and beautiful colored berries. It is not firm enough to be classed as an extra good shipping variety, but for a near market it is in a class by itself, as the fruit is extra large, has a beautiful color, and the quality is unsurpassed. The fruit holds its size well to the end of the season. The canes grow very tall, are nearly smooth, hardy and very productive. This combination of good qualities will make June one of the leading market and garden varieties within a few years.

KANSAS—New. Originated in Kansas, where it is prized as the best blackcap. Ripens early and is as large or larger than the Gregg. Jet black, firm, handsome and of best quality. Very vigorous and productive. Very popular East and West.

CUTHBERT—The most extensively planted red raspberry. Fruit bright red, good and very large, bush very vigorous, hardy and prolific. Medium to late. Land should not be too rich.

GOLDEN QUEEN—New. Similar to the Cuthbert, of which it is a seedling, except in color, which is what its name implies. Very large, hardy, vigorous and productive. No garden should be without it.

KING—Pronounced the best early red raspberry by many of the leading horticulturists. Plant

Large Trees Eight to Ten “BEARING

Reduce the high cost of living, make every available

Our “Bearing Age” Trees bear

The Gardener and Fruit Grower who desires quick results from planting fruit trees should try our “Bearing Age” trees, 8 to 10 ft. tall, listed in this catalog.

We have a large supply and complete assortment to meet the needs of those who desire fruit the first year after planting. Freight and Express paid by us.

Our “Bearing Age” Trees

Advantages of Buying Our “Bearing Age” Trees

These trees carefully grown in our nurseries are developed three years older than the regular two year stock. You will save three years waiting for your trees to bear by choosing our “bearing age” grade. During these times of high cost of living, it is important to you to get your planting bearing at the earliest possible date and the labor in setting out these large trees is very little extra than it would be to choose the regular two year old stock. Remember that our price for “bearing age” trees includes all transportation charges paid by us to your shipping station.

Home made jellies, syrups, cider, delicious drinks of all kinds, and fruit for the entire family, can be produced right in your garden in one year by planting a dozen of our bearing age trees.

Ask Any Young Man Who Has Been in France

He will tell you that the French people plant big bearing age trees. They make every foot of ground in their gardens produce something for the table. Fruit trees are even pruned to grow along side their stone houses. A Frenchman practically lives out of his garden. Just to see how they do it has been an object lesson to every young man who was there and observed the Frenchman in his village life.

one year from planting

Buy Our "Bearing Age" Trees Now

This year we have a big supply and complete assortment. Next year our supply of "bearing age" will be practically exhausted. The war has brought about a great under production of fruit trees. It will be several years before the nurserymen can get production back to normal. There will not be half enough trees next year to supply the demand. Prices will be way beyond what they are now. Do not hesitate or delay but send your order in now and be assured of big elegant stock delivered at your door at planting time.

Planting Directions for Our "Bearing Age" Trees

Dig a hole deep enough so that the tree will stand at the same depth as it stood in the nursery. Cut off all broken or bruised roots making a clean cut with a sharp knife. Tramp the dirt firmly around the roots, using the mellow rich earth from the top of the ground. Leave about two inches of loose earth on top of the ground around the tree to prevent evaporation of moisture. Trim back the limbs about eight inches. If the weather comes off dry after planting, occasionally pour a bucket of water around each tree. These simple directions will insure success.

Thorough preparation of the soil before planting is just as important with the Raspberry as with other fruits. Planting in rows and then restricting the plants to hills is the usual method. The rows should be from four to six feet apart and the plants four to five feet apart in the rows. Clean cultivation is important because if the plants become choked with grass or weeds, it will check their growth and not only the fruiting canes will suffer for moisture but those intended for the next season's crop.

It is not advisable to plant too deeply and at the same time of planting, cut the canes down close to the surface of the soil, as the entire forces of the plant are required the first season to produce canes if anything like a crop of fruit is expected the next.

Very little pruning is necessary with the Raspberry except to go over the plantation after fruiting and cut close to the ground all of the old and weak canes. Some growers believe, however, that the bearing canes should be pruned in the Spring by heading back the leading shoots and shortening the lateral ones. They claim that when pruned in this manner, the fruit will be larger and the plant will yield as many quarts as though the canes were left their full length.

Raspberries—Continued

a strong grower, very hardy and productive. Berry is firm, a good shipper; large size; beautiful bright scarlet color; ripens with the earliest. Prof. W. J. Green, of Ohio Exp. Station, says: "King has proved the best early red raspberry. It is large, bright red, quite firm, and of good quality."

MARLBORO—A very large, bright red berry, ripening with the earliest, firm and of good quality. Very hardy, and a fair grower and great bearer. Needs good soil.

SHAFFER'S COLOSSAL PURPLE—A very large raspberry both in cane and fruit. Canes are of wonderful vigor and size, hardy and enormously productive; berries are very large and of purplish color.

ST. REGIS EVERBEARING—A new variety, very large, juicy and of the highest quality. The canes are strong, vigorous and hardy. The main crop is very early. The old canes continue to produce till late August when the new season's growth begins to ripen some fruit. Be sure to plant some of this variety.

OHIO (Black)—A strong growing sort; large and very productive.

PLUM FARMER (Black)—It ripens very early and quickly. The fruit is of large size, often

measuring an inch in diameter. It sells at the highest price.

RUBY (Red)—Ripens a few days before Cuthbert. The fruit holds out large to the last picking and arrives in the market in good condition.

TODD PERFECTION (Trade Mark)—This is a new, extra early variety of very great merit, which comes from the Hudson River fruit section. It is very productive and perfectly hardy. The over-ripe berries have a tendency to drop from the bushes if left too long, and this habit will be appreciated by growers who ship their fruit, as it is the over-ripe, soft and mouldy berries, which the pickers are so liable to put in the baskets, that soon spoil the entire basket. This trait, together with its firmness, makes it the very best early shipping variety. Todd Perfection makes a good strong growth of canes not easily bent over with their loads of berries, thus making the picking fast and easy. We unhesitatingly recommend this variety to all berry growers as the best money maker of them all.

LOUDON (Red)—Large, deep red, of good quality.

Blackberries

Prices on our select assortment of leading varieties
 \$2.25 per 25, \$7.00 per 100, \$47.50 per 1000

ANCIENT BRITON—This variety was brought from England a few years ago, and unostentatiously and by merit alone has worked itself into the esteem of both growers and consumers. It is very hardy, vigorous, healthy and exceedingly productive. Large and late.

BLOWERS—Originated in the Chautauqua "Grape Belt," and is no doubt the most productive blackberry known. 2,694 berries have been grown on one bush, and 2,720 quarts on one-third acre. Of good size and quality. Jet black and a good shipper. Hardy.

ELDORADO—A good grower, healthy, very hardy and exceedingly productive. Berries are large, jet black and of best quality. Very reliable.

ERIE—One of the earliest, very large, round and of excellent quality. Bush is vigorous, hardy and productive.

MERSEREAU—A very hardy, strong, upright grower and great bearer of brilliant black

berries that retain their color. Sweet, rich and melting, without core.

RATHBUN—Large, early and productive. Does not sucker freely, but roots from the tip of its cane like the black raspberry. Very hardy, sweet and free from core.

SNYDER—Extremely hardy, enormously productive, medium size, no hard, sour core; sweet and juicy. The leading variety where hardiness is the consideration. Ripens early.

Dewberries

LUCRETIA—A running or trailing blackberry. May be left to sprawl on the ground or else tied up on stakes or trellises like grape vines. Propagates from tips like black raspberries and never suckers. Prune severely. The Lucretia is the best of its class, ripening before any blackberry. Very large, wonderfully productive and of very best quality.

Gooseberries

Prices on select two year old plants, 45c each, \$4.00 per 10, \$35.00 per 100

CHAUTAUQUA—A very vigorous, stout, stiff, upright grower and exceedingly productive. Should not be planted closer than four by six feet apart. Leaves are large, glossy and dark green; its fruit is a beautiful light yellow, perfectly free from spines and down, veined and translucent, averaging in size 1 to 1 1/4 inches in diameter, although we have often grown them 1 1/2 inches long. Rather thick skinned, but very sweet and of exquisite flavor.

INDUSTRY—Very large, dark red and of a rich, pleasant flavor, but not of robust constitution.

DOWNING—The largest of the American varieties. Whitish green, and of good quality.

Bush is a strong, stout, upright grower, and quite prolific and healthy.

HOUGHTON—Pale red, medium sized berries of good quality. Vigorous but slender grower. Healthy and very productive.

JOSSELYN (Red Jacket)—A vigorous, upright growing bush, healthy and productive. Fruit is light red and of about the size of the Downing.

PEARL—About the same if not identical with the Downing.

SMITH'S IMPROVED—Large, yellow; skin thin. Of best quality and unsurpassed for table use and cooking. Good grower and free from mildew.

Ornamental Trees

AMERICAN ELM

This well known tree ranks among the very best for avenue or park, especially in deep or wet soil. It grows rapidly and makes tough branches, rarely being damaged by wind or snow. Its spreading head, drooping branches and stately growth give it the name of the "Monarch of the Forest."

Price: 6 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.25 each; 10 to 12 ft., \$1.75 each.

BECHTEL'S DOUBLE FLOWERING CRAB

A medium sized, hardy ornamental tree of great beauty. When in bloom this tree presents the appearance of being covered with roses. Flowers large, fragrant and beautiful.

Price: 3 to 4 ft., \$1.00 each.

BEECH, CUT-LEAVED

An erect, free-growing tree, foliage light green and deeply cut or incised. A fine lawn tree.

Price: 3 to 4 ft., \$2.00 each.

BEECH, RIVERS' PURPLE

A variety of European beech with large, smooth, very dark leaves. The best purple lawn tree known.

Price: 2 to 3 ft., \$1.75 each.

BIRCH, CUT-LEAF WEEPING

This fine tree excels all others in its tall form and graceful beauty, its upright center trunk covered with white bark, its drooping branches and pendent leaves increasing its attractiveness. It is hardy and thrifty in all locations.

Price: 5 to 6 ft., \$1.75 each.

CATALPA—BUNGEII

A small species that grows 8 to 10 feet high and twice as broad, forming a great bush, clothed with a dense mass of large, heart-shaped leaves. Among our hardy shrubs are but few, if any, that are more effective as foliage plants for park or lawn. When grafted on a stalk of one of the tree species 5 or 6 feet high, it makes a handsome standard tree, with a very dense and symmetrical globular head, without trimming.

Price: 6 ft. stems, \$2.00 each.

CATALPA—SPECIOSA

This medium to large tree, with its tropical-like foliage and its pyramids of white flowers, is worthy a place in every collection.

Price: 6 to 8 ft., 75c each; 8 to 10 ft., \$1.00 each.

CAMPERDOWN ELM

This old favorite is the largest of the "umbrella-topped" trees; foliage large, growth spreading and pendent. It produces dense shade and is the best arbor tree for lawns.

Price: 2 yr. heads, \$2.00 each.

HORSE CHESTNUT

A very beautiful, well-known tree, forming a round, compact head, with dark green foliage and an abundance of showy flowers early in spring. Very desirable on account of its hardy, healthy habit. When fully grown, 40 to 50 feet high.

Price: 8 to 10 ft., \$1.50 each.

JUDAS TREE, OR RED BUD

A very pretty low growing, round headed tree, the stems of which are clothed with a profusion of purplish-red flowers before the foliage appears. Unique and beautiful. They flower at the same time as the Chinese Magnolia, and when planted near together the effect is most striking.

Price: 4 to 6 ft., \$1.50 each.

KOELREUTERIA

A small growing round headed tree from China, with pinnate leaves and large panicles of showy golden yellow flowers in July. An unusually good lawn tree and perfectly hardy.

Price: 3 to 4 ft., \$1.50 each.

LABURNUM OR GOLDEN CHAIN

A native of Europe, with smooth shining foliage, attaining the height of 20 feet. The name of the Golden Chain alludes to the length of the drooping racemes of yellow flowers which, as Cooper elegantly describes them, are "rich in streaming gold." They appear in June.

Price: 4 to 5 ft., \$1.50 each.

LINDEN

The American and European Lindens are our best large-leaved shade trees. Specially adapted to lawn planting. Foliage is dense, and when in bloom their fragrance is delightful.

The Lindens are all beautiful, and merit more notice than they receive. They possess many valuable qualities.

Price: American or European, 6 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.50 each.

KING BROS. NURSERIES **DANVILLE, N.Y.**

Ornamental Trees—Continued

MULBERRY, WEEPING

This weeping tree is without doubt the best for general planting of all small lawn or cemetery trees. Its willowy, pendent branches are covered with large, light green, deeply-lobed foliage. The tree is hardy and thrives in a variety of soils.

Price: 2 yr. heads, \$2.25 each.

RED MULBERRY

A handsome tree, with a short trunk and stout spreading branches, forming a dense broad crown.

Price: 7 to 8 ft., \$1.50 each.

RUSSIAN MULBERRIES—Trees very hardy, stood forty degrees below zero and bore a full crop of berries the next season. They are an annual and abundant bearer. The fruit is from white to pink and some black in color and from very sweet to quite tart in taste.

Price: 4 to 5 ft., 75c each; 5 to 7 ft., \$1.00 each.

EUROPEAN WHITE WEEPING BIRCH—A graceful tree, with silvery bark and slender branches. Quite erect when young, but after four or five years growth assumes an elegant drooping habit, rendering the tree very effective in landscapes.

6 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.25 each; 10 to 12 ft., \$1.50 each.

MAGNOLIA

A class of valuable and beautiful trees because of their fine foliage, luxuriant appearance and fragrant flowers. They are the best lawn trees in our collection where climate is suitable.

Chinese Varieties

These are the dwarf growing, large flowering varieties, of which the best are Speciosa and Soulangiana, white with red-purple centers, and Conspicua, pure white.

Price: 4 to 5 ft., \$4.00 each.

NORWAY MAPLE

MAPLE, ASH-LEAVED, OR BOX ELDER

Of rapid growth, especially while young, and spreading form; foliage small and of light green color. Transplants easily and does well in dry soil. A good shade tree and, if pruned, attractive and valuable.

Price: 8 to 10 ft., \$1.25 each.

MAPLE, JAPANESE

These slow, low-growing dwarfish trees are general favorites, on account of their dense, compact and graceful growth and brilliant, beautifully cut foliage, varying in color from brightest yellow to deep blood-red. Unsurpassed for lawn decoration. Autumn colorings are gorgeous.

Price: 1½ to 2 ft., \$2.50 each.

MAPLE, NORWAY

The dense, dark foliage of this lovely tree and its compact, strong habit of growth, its freedom from attacks of insects, combine to make this the very best street, avenue or lawn tree for all situations. It rivals the oak, and the oldest trees known are still young in appearance.

Price: 6 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.25 each; 10 to 12 ft., \$1.75 each.

MAPLE, SCHWEDLER'S

New Broad-Leaved Purple Maple

One of the handsomest, most valuable and popular of the new foliage trees. Its hardiness, easy growth, freedom from insects and disease, and clearly distinct and permanent color, make it especially desirable. In size and form of leaf and habit of growth this tree is very much like the Norway Maple described above. The foliage and leaf stalks, however, are different, being a distinct maroon red or a reddish purple color, quite

KING BROS. NURSERIES DANVILLE, N.Y.

Ornamental Trees—Continued

permanent in mid-summer, and especially distinct in Spring and Autumn.

Price: 6 to 8 ft., \$1.50.

MAPLE, SILVER-LEAVED OR WHITE

A hardy, rapid-growing native variety of the largest size; foliage bright green above and silvery underneath.

Price: 6 to 8 ft., 75c each; 8 to 10 ft., \$1.00 each; 10 to 12 ft., \$1.25 each.

MAPLE, WIER'S CUT-LEAVED SILVER

This is one of the most remarkable and beautiful trees with cut foliage. Its growth is rapid, shoots slender and drooping, giving it a habit almost as graceful as the cut-leaved Birch.

Price: 8 to 10 ft., \$1.25 each; 6 to 8 ft., \$1.00 each.

PALUSTRIS, OR PIN OAK

A tall, upright growing variety when young, but with age the branches droop. Foliage bright and glossy. One of the best oaks for street planting and becoming very popular.

Price: 4 to 5 ft., \$1.00 each.

PLANE

A favorite avenue tree in Europe, and becoming very popular in this country.

Price: 8 to 10 ft., \$1.00 each.

CAROLINA POPLAR

This rapid growing tree, with its large glossy leaves, open head and symmetrical habit of growth, is the best of all poplars for shade and street planting.

Price: 6 to 8 ft., 55c each, \$4.00 per 10, \$30.00 per 100; 8 to 10 ft., 65c each, \$5.00

LOMBARDY POPLAR

This is an old favorite. Well known and remarkable for its erect, rapid growth, and tall spiral form. Indispensable in landscape gardening to break the ordinary and monotonous outline of most other trees.

Price: 6 to 8 ft., 60c each, \$5.50 per 10, \$50.00 per 100. 8 to 10 ft., 90c each, \$8.50 per 10, \$75.00 per 100.

DOUBLE FLOWERING THORN

Among the small trees the thorns are classed as leaders, and grow more popular every year. They are dense and low in habit, showy in flower, resembling masses of miniature roses. Hardy and adapted to all soils. Especially valuable for small grounds. Flowers white and scarlet.

Price: 4 to 5 ft., 75c each.

MULBERRY, DOWNING—This tree is not alone valuable for the large refreshing berries it bears, but is very handsome as a lawn or street tree. This should be in every yard or garden.

Price: 4 to 5 ft., 75c each, \$7.00 per 10.

WILLOW, KILMARNOCK—Our common well-known weeping variety; forms a large round-headed, graceful tree; requires plenty of room, and where space can be spared, is quite desirable.

Price: 7 to 8 ft., \$1.00 each.

DOUBLE-FLOWERING THORN

The most humble home can be made attractive and loveable by a small expenditure of time and money, and the back yard should receive the same consideration as the front, to have a harmonious whole.

A modest arrangement for a town or city lot, a group of Thunberg Barberry, a Cut-Leaved Weeping Birch, a Kilmarlock Willow, Annuals, Roses and Vines.

Thunberg Barberry backed by a blending of Ampelopsis Veitchii and Paniculata Clematis.

Evergreens

Evergreen trees are stately and majestic as individuals, and strikingly effective and imposing in masses. They are invaluable as screens against objectionable objects, windbreaks and hedges. Planted in informal masses, forming a background against which showy flowers of spring-blooming shrubs may be contrasted, or the bright winter colors of the twigs and bark of small trees and shrubs, evergreens make possible some of the most enchanting results in ornamental planting. Our evergreens have been frequently transplanted and are shipped with compact balls of roots, wrapped in burlap. This method of handling insures the planter against loss.

KOSTER'S BLUE SPRUCE

BALSAM FIR (*A. Balsamea*)—Very erect and regular, pyramidal in shape; foliage dark green and lustrous above, pale on under side. Grows rapidly and is hardy.

Price: 2 to 3 ft., \$3.00 each, 10 for \$27.50.

HEMLOCK (*P. Canadensis*)—A most graceful and beautiful variety. Branches droop, and the dark, bluish foliage is very delicate.

Price: 2 to 3 ft., \$3.00 each, \$27.50 per 10.

RETINISPORA (*R. Var. Gracilis*)—A dwarf variety rather irregular in habit with short, dark green foliage.

Price: 1½ to 2 ft., \$2.00; 2 to 2½ ft., \$3.00; 3 ft., \$4.00.

RHODODENDRON (*Rose Bay*)—Through its blooming season in June and July, no shrub in nature's garden the world over can compare with this. In winter the great, leathery leaves of the Rhododendrons form rich banks of

green, quite different in character and color-tone from the tints of the conifers. They will grow in any good soil, but are finest in a somewhat sheltered location where the soil is deep, well drained, and mulched with leaves. We have them in a variety of colors; white, red, and purple being the most attractive; strong, bushy plants, well set with flower buds.

Price: 12 to 18 in., \$3.00 each, 10 for \$27.50; 18 to 24 in., \$4.00 each, 10 for \$35.00.

SIBERIAN ARBOR VITAE (*T. Var. Siberica*)—Exceedingly hardy, keeping color well in winter; growth compact and pyramidal; makes an elegant lawn tree of great value for ornaments, screens and hedges.

Price: \$1.00 each, \$9.00 per 10.

AMERICAN ARBOR VITAE

A tree of variable height and pyramidal outline, especially beautiful when young. Grows naturally from Nova Scotia and Manitoba to North Carolina and Illinois. Foliage bright

BALSAM FIR

Evergreens—Continued

green, yellow green beneath, or in winter assuming tones of brown and bronze.

Price: 2 to 3 ft., 75c each, \$6.50 per 10.

KOSTER'S BLUE SPRUCE

Unquestionably the most beautiful of the spruces for garden or lawn. Foliage silvery-blue, densely disposed on the numerous branchlets. Our stock is uniformly blue, the bluest strain that can be selected, grafted from the famous Koster variety.

Price: 2 to 3 ft., \$4.00 each.

IRISH JUNIPER

A slender columnar form with numerous upright branches very closely appressed. Very formal in outline and invaluable in gardens where architectural features are desired. Foliage glaucous green.

Prices: 2 to 3 ft., \$1.25 each; \$10 per 10.

NORWAY SPRUCE

A tall and picturesque tree, and the most

widely cultivated of all the spruces. Native of Northern and Middle Europe. Extensively planted as an ornamental tree and for shelters and windbreaks. Handsome and hardy, graceful and green, of rapid growth and great adaptability, this grand tree commends itself. Cones five to seven inches long, light brown. Branches spreading, usually pendulous.

Price: 2 to 3 ft., 75c each, \$6.50 per 10.

SCOTCH PINE

A large tree with horizontal, sometimes pendulous branches of pyramidal outline, or in age with a broad rounded top. Native of Europe and Asia; leaves in pairs, twisted, bluish-green, two or three inches long, reddish brown. This is one of the chief timber trees of Europe, frequently planted as a screen in sand-dune regions to prevent drifting.

Price: 2 to 3 ft., \$1.50 each, \$13.50 per 10.

Paeonia

One of the chief points in favor of the paeonia is its hardiness. In the severest climate the plants require no protection. Their vigorous habit, healthy growth, freedom from disease and insects are in favor of their cultivation. When the paeonia is once planted, all that is necessary has been done; they require no further care, and each succeeding year adds to their size and beauty. The foliage is rich and glossy, and of a beautiful deep green color, thus making the plants highly ornamental even when they are not in flower. The paeonia can be planted either singly, on the lawn, or it can be used to excellent advantage to plant as a border line between lots. A large bed makes a most magnificent appearance.

Varieties

Albion—Cherry rose, edged paler.

Artemise—Rosy pink, center petals delicate rose and blush white, full double.

Camille Calot—Light rose.

Clarissa—Rosy pink, inner petals sulphur.

Comte de Diesbach—Dark red, early.

Comte de Niepperg—Dark rose-pink, large bloom.

Delacheii—Deep, crimson purple, one of the best dark kinds, late.

Grandiflora Rosea—Light rose, outer petals very large; inner smaller and bunched; vigorous grower.

Hesperia—Pink.

Phryne—Blush white.

Prince Imperial—Brilliant, purplish-scarlet, free bloomer.

Queen Victoria—The standard pure white market variety.

Rosea Plena Superba—Very full flower, delicate

pink and salmon.

Price: Strong plants, with three to five good eyes, 50c each, \$4.50 per 10.

PERENNIAL PHLOX

Hardy and succeeds in any climate. Can be planted in large groups on the lawn, or in a row along the border of the roadway. Red, pink or White.

Price: 30c each, \$2.50 per 10.

Ornamental Shrubs

ALTHEA

Vast improvements have been effected in this variety, and in consequence its old time popularity has been revived. We can supply it in red, purple or white color.

Price: 50c each, \$4.50 per 10.

CALYCANTHUS FLORIDUS

(Strawberry Shrub)

An admirable and very ornamental shrub, widely cultivated for its large fragrant flowers. Grows naturally from Virginia to Florida. Leaves broad, dark green above, downy beneath;

Ornamental Shrubs—Continued

flowers reddish brown, sweet scented; blooms profusely in late spring and early summer. Grows four to six feet high.

Price: 50c each, \$4.50 per 10.

DEUTZIA

A hardy class of plants of fine, rather dwarf habit, luxuriant foliage and greatest profusion of attractive flowers, rendering them the most desirable of flowering shrubs. The most popular are *Pride of Rochester*, producing large double white flowers, the back of the petals being slightly tinted with rose; *Gracilis*, or *Slender Branched*, a charming species with pure white flowers and fine for pot culture; *Lemoine*, the newest and perhaps the finest of the family, the branches being entirely covered with pure white flowers of exquisite form.

Price of three varieties: 50c each, \$4.50 per 10.

EXOCHORDA Grandiflora

A rare and beautiful shrub from China. Hardy and easily transplanted; of compact growth, and can be trimmed in dwarf form if desired. Pure white flowers, somewhat resembling the *Syringa*, but appearing on longer and lighter spikes. Blooms about the time of Lilacs and Rhododendrons.

Price: 3 to 4 ft., 60c each, \$5.50 per 10.

ELEAGNUS LONGIPES

A handsome, shapely, silver-leaved shrub, with ornamental reddish-brown bark in winter; perfectly hardy and easy to grow. The bright yellow flowers appear in June on long stalks, but the greatest value of the shrub is in the fruit, which is produced in the greatest abundance along the whole length of the branches; oval in shape and about one-half inch long. Color deep orange red; very showy and attractive. The fruit is not only very ornamental, but has a sprightly, sharp, pleasant flavor, and makes a delicious sauce when cooked. *Eleagnus* is one of the most valuable ornamental berry-bearing shrubs, and should be largely planted.

Price: 2 to 3 ft., 80c each, \$7.50 per 10.

FORSYTHIA (The Golden Bells)

Few if any of the Spring flowering hardy shrubs can surpass the splendor and brilliancy of the *Forsythias*. Both grace and beauty are combined in all their attributes and give them rank for any station in the shrub plantations. They thrive in almost any fertile soil.

Price: 50c each, \$4.50 per 10.

FORSYTHIA INTERMEDIA (Hybrid Golden Bell)

A tall shrub with slender arching branches, of garden origin; leaves simple or three-parted, dark green and lustrous; flowers golden yellow, borne in great profusion. Grows eight to ten feet high. Very floriferous.

FORSYTHIA SUSPENS A (Drooping Golden Bell)

A graceful shrub with long and slender drooping branches. Native of China. Leaves dark green and lustrous, persisting until frost; flowers

in great profusion, golden yellow, very showy. Grows about eight feet tall. One of the showiest shrubs in cultivation.

FORSYTHIA SUSPENS A FORTUNEI (Fortune's Golden Bell)

Similar to the preceding, but of more vigorous upright growth. Branches arching, bearing dark, lustrous green leaves, either simple or three parted. Flowers golden yellow, often with twisted petals. A grand shrub, often growing eight to ten feet high.

FORSYTHIA VIRIDISSIMA (Dark Green Forsythia)

A large shrub with erect, green-barked branches. Native of China. Leaves simple, very dark green, relatively narrow; flowers golden yellow, with somewhat reflexed often twisted petals. A handsome shrub, but perhaps not quite so hardy as the foregoing species.

PHILADELPHUS CORONARIUS (Mock Orange or Garland Syringa)—One of the best known and most popular of all shrubs, having a profusion of large, creamy white, deliciously fragrant flowers that are among the earliest to bloom. Large size, perfectly hardy, and will succeed in all soils, even under trees. When in flower the bush is a solid mass of white and is one of the most satisfactory shrubs. Plant them in groups about the house and on the lawn; fine for high hedging or as a screen to shut out unsightly views.

Price: 50c each, \$4.50 per 10.

PHILADELPHUS GORDONIANUS (Gordon's Syringa)—A handsome shrub having a profusion of white flowers. Blooms late—in July—nearly two months later than *P. Coronarius*; therefore both should be planted.

DOUBLE-FLOWERING PLUM—Native of China. Flowers double, of a delicate pink, upwards of an inch in diameter, thickly set on the long, slender branches; flowers in May.

Price: 2 to 3 ft., 80c each, 10 for \$7.50.

HYDRANGEA PANICULATA GRANDIFLORA
This is undoubtedly the best and most effective shrub for all locations, and the tree form of this well known, late blooming shrub, as it attains age, becomes conspicuous and beautiful beyond description.

Price: Standard or tree form, 3 ft., \$1.00 each. Bush form, 2 ft., 60c each, \$5.50 per 10.

HYDRANGEA ARBORESCENS STERILIS (Hills of Snow)

An upright shrub, usually four to eight feet tall, with bright green leaves. Flowers ray-like and sterile, resembling a snowball. A handsome, floriferous, hardy shrub, literally loaded with dazzling white flowers and continuing to blossom for a large part of the summer until late fall.

Price: 18 to 24 in., 50c each, \$4.50 per 10.

JAPAN QUINCE

Spiny shrubs, with bright green glossy leaves, a native of China and Japan. Flowers scarlet, large and showy. Fruit is about two inches in diameter, yellowish green, aromatic and fragrant.

Price: 50c each, \$4.50 per 10.

KING BROS. NURSERIES **DANVILLE, N.Y.**

Ornamental Shrubs—Continued

JAPAN SNOWBALL

Handsome plicated leaves; globular heads of pure white neutral flowers, early in June. It surpasses the common variety in several respects. Its habit is better, foliage much handsomer, flowers whiter and more delicate. One of the most valuable flowering shrubs. These can also be supplied in tree form and are very effective.

Price: Bush Form, 2 to 3 ft., 60c each, \$5.50 per 10. Tree Form, 4 to 5 ft., 90c each, \$8.50 per 10.

LILAC

These old-time favorites have again sprung into wonderful popularity, and justly so, as wonderful improvements have been made in both form and coloring, and they are now one of our most attractive classes of large growing shrubs. In ordering state color desired.

Price: Tree form, 3 to 4 ft., 90c each. Bush Form, 18 to 24 in., 60c each, \$5.50 per 10.

PURPLE FRINGE, OR SMOKE TREE

A small tree or large shrub with obovate leaves. Native of Europe and Asia. Flowers pale purple borne in loose panicles, the pedicels of which soon lengthen and become plumose, lending the smoky aspect which gives the plant its common name. In autumn the foliage assumes brilliant tones of red and yellow.

Price: 60c each, \$5.50 per 10.

SPIREAS

Anthony Waterer

A new dwarf shrub of great beauty. Its broad flat heads of red flowers continue in perfection many months. Bumalda (pink) and Callosa Alba (white), have the same form and the three make a beautiful combination.

Price: 18 to 24 in., 60c each, \$5.50 per 10.

Van Houttei

The best white Spirea. The annual growth is long and abundant and covered in June with a wealth of pure white blossoms in a perfect cascade of bloom. Perfectly hardy. Should be in every collection.

Price: 2 to 3 ft., 50c each, \$4.50 per 10.

WEIGELA

These are among the finest Japanese flowering shrubs, forming large symmetrical bushes with a drooping tendency, covered in June and July with large trumpet-shaped flowers of varying colors, while some have variegated foliage.

Price: 50c each, \$4.50 per 10.

CANDIDA—Flowers purest white.

Eva Rathke—Flowers deep bright red, borne freely during the summer.

Floribunda—Flowers dark crimson with white stamens; blooms early and continues during the summer.

Rosea—Flowers are large and of deep rose color, produced in great profusion. One of the most desirable shrubs on the list.

Climbing Vines

CLEMATIS

Paniculata

A vine of rapid growth suitable for covering trellises with glossy green. The small white flowers cover the plant in autumn with a "sheet of bloom."

Price: 65c each.

Jackmanni

Flowers, when fully expanded, are from 4 to 6 inches in diameter; intense violet purple, with a rich velvety appearance. An abundant bloomer.

Price: 65c each.

HENRYII

Henryii—Creamy white. A robust, free-flowering variety.

Price: 65c each.

AMPELOPSIS VEITCHII

Boston or Japan Ivy

This variety which came from Japan in 1868 has found great favor throughout this country, and may be seen as a carpet of green on brick or stone walls all through the summer months. It adheres without nailing to brick or stone.

Price: 65c each.

HALL'S JAPAN HONEYSUCKLE

A strong variety, almost evergreen, holding its foliage until late in January. The flowers are pure white and yellow, very fragrant, and cover the vines from July until December. The best of all the honeysuckles.

Price: 65c each.

KING BROS. NURSERIES DANVILLE, N.Y.

WISTARIA

Chinensis (Blue Wistaria)

A very strong grower, after once established, that climbs high and twines tightly. It blooms very profusely early in the summer, and again more sparingly later in the season.

There is also a **White Flowering** variety which is equally beautiful.

Price: 70c each.

ARISTOLOCHIA SIPHO

Dutchman's Pipe

A rapid growing climber, with large heart-shaped leaves and curious pipe-shaped yellow and brown flowers. Perfectly hardy and grows 20 feet or more in a season, making a dense shade.

Price: 80c each.

Hedge Plants

To screen unsightly objects from view, to mark lines or boundaries, hedges are most useful, and with proper attention very ornamental.

For permanent all-around effect evergreens are desirable, and the best sorts for the purpose are American Arborvitae in variety, Norway and other Spruces. These can be allowed to grow at will or kept in any desired shape by shearing.

Among deciduous shrubs for ornamental hedges the **California Privet** is very popular, having a foliage of great beauty and permitting a shearing to an extent that would ruin most plants. But in certain situations and for certain uses there is

another even better, the **Berberis Thunbergi**, which for a low hedge has no equal.

This beautiful species from Japan, with round drooping habit, spoon-shaped leaves of fine brilliant green in summer, takes on from early autumn till December the most glowing colors of any shrub or tree—crimson orange, bronze and green, with all the intermediate shades, blended in the foliage of a single bush, the effect being most extraordinary and beautiful. After the leaves fall, the branches are seen to be loaded down with scarlet-crimson berries, and these often hang until April, presenting a most beautiful object, and it is also of great value to plant as "cover" where quails or other game birds are protected, as they feed greedily on its seeds. For a hedge 3 to 4 feet high it is the very best of all plants, being impenetrable, as it is thickly set with spurs.

No other plant so fully meets every requirement of a hedge, combining beauty in all seasons, hardiness, compact growth, impenetrability and ease with which it may be kept in proper form.

We urge all intending to plant hedges to thoroughly prepare and enrich the soil, if of poor quality.

Price of Hedge Plants

California Privet, 18 to 24 inches, 20c each, \$1.25 per 10, \$5.00 per 100; 2 to 3 feet, 25c each, \$1.50 per 10, \$6.00 per 100.

Barberry Thunbergi, 18 to 24 inches, 50c each, \$4.50 per 10, \$40.00 per 100.

Join with your neighbors in pulling down the ugly fence; give place to the beautiful Privet, and add to the value of your property.

For divisions between properties or separation from the highway there is nothing more economical and beautiful than a well kept hedge, which nature keeps freshly painted from year to year without cost and is not subject to decay.

Roses

The Rose is the greatest source of delight and pleasure to all lovers of the beautiful. They are a necessity to every well planned garden. We make a speciality of growing only choice roses of hardy habit. Our plants will thrive in a wide range of soils, but will amply repay any effort made to afford them fertile and congenial surroundings.

Prices of all varieties of Roses.

**First class 2 year
No. 1 plants: 75c
each, \$7.00 per 10.**

ANNA DE DIESBACH

COQUETTE DES ALPS

White, shaded with carmine, strong grower, very popular.

BARON DE BONSTETTEN

Large flowers, very solid, round and full; dark, rich crimson, delightfully scented; free bloomer and of hardy and vigorous habit.

ULRICH BRUNNER

One of the finest red roses in existence. Color brilliant cherry-red. This variety is a seedling of Paul Neyron from which it derives its immense size. It has fine form, is intensely fragrant, and the flowers have great lasting qualities, which make it valuable for cutting. The flowers are borne freely on long, stiff stems. Foliage very strong and healthy.

MAGNA CHARTA

Extra large full flowers of unusual depth and substance; bright rosy pink; very profuse bloomer, on long, stiff stems.

J. B. CLARK (Hybrid Tea)

An intense scarlet rose, shaded blackish crimson, color like the sheen of a plum, often 7 in. in diameter. It has created a great sensation throughout the United States and Europe. Flowers borne freely the first year, on long stiff stems; fragrance very sweet. Hardy even in Canada.

AMERICAN BEAUTY

Color a deep pink to crimson and intensely fragrant. A great favorite.

HERMOSA

Well known as one of the best for general planting; blooms in clusters all the season; clear, bright pink; very double and fragrant; quite hardy.

JOHN HOPPER

A hardy rose; an abundant bloomer; solid and regular flowers, perfectly double; clear, bright rosy pink; very fragrant.

GENERAL JACQUEMINOT

This lovely rose is seldom if ever omitted from any collection, and will ever be a favorite. Its clear, rich, brilliant crimson-scarlet color, large and elegant form, free flowering habit and strong erect growth, all combine to captivate the heart of every lover of the beautiful. Perfectly hardy.

KILLARNEY

A very beautiful coral pink Hybrid Tea Rose. Free in growth, producing strong, hardy shoots which are crowned with buds. A great favorite for winter flowers and worthy the high place it has attained. Needs protection in severe climates. The flowers are lasting, remaining clear and bright to the last. Delicate Tea Rose fragrance.

CLIO

KING BROS. NURSERIES **DANSVILLE, N.Y.**

Roses—Continued

ANNA DE DIESBACH

Color a beautiful shade of carmine pink; flowers very large and sweet.

BARON DE BONSTETTEN

COQUETTE DES BLANCHES

Pure, snowy white, sometimes faintly tinged with pale rose; blooms in large clusters, medium size, full and slightly fragrant. Blooms all through the season.

CLIO

This is a grand addition to our list of white or blush hardy garden roses. The flower is perfection in form, with fine broad petals; color delicate satiny blush, with a light shading of rosy-pink at the center. It is doubtful if this beautiful rose will ever be outclassed by one of its color.

ALFRED COLOMB

A noble rose; large, globular flowers; bright rich crimson, dark and handsome. The bush is a strong, erect grower, entirely hardy and an abundant bloomer.

MARGARET DICKSON

Of magnificent form; white, with pale flesh center; petals very large, shell-shaped, and of great substance; fragrant, a very beautiful variety; foliage very large; dark green.

FRAU KARL DRUSCHKI

(Snow Queen)

This exquisite rose is the only absolutely pure white rose ever introduced. Of German origin. It is perfectly hardy everywhere and a most vigorous grower. Although we have many so-called white roses, it is a fact that before the introduction of Frau Karl Druschki we had no pure-white hardy rose.

EARL OF DUFFERIN

One of the finest roses of recent years; red and velvety crimson, shaded with dark maroon. Large flowers, finely formed, vigorous grower. One of the very finest dark roses.

A Tastefully Arranged Rose Garden.

Roses—Continued

LA FRANCE

Both buds and flowers are of lovely form, grand size and exceedingly sweet; color peach blossom pink, elegantly clouded with rosy flesh. Begins to bloom while very small and continues bearing until stopped by freezing weather.

MARCHIONESS OF LONDONDERRY

Flowers of great size, perfectly formed and carried on stout stems. Color ivory-white, petals of great substance, shell-shaped and reflexed. Highly perfumed and free flowering. Foliage handsome and healthy.

MADAM GABRIEL LUIZET

A fine satiny rose, inlaid with silvery-rose, heightened at the center. One of the most beautiful roses grown. A strong, sturdy grower.

KILLARNEY

MADAM PLANTIER

Enormous bloomer, extremely hardy; splendid for cemetery planting.

CLOTHILDE SOUPERT

Beautiful, creamy white color; flowers large, full, double, and deliciously sweet; constant bloomer.

GRUSS AN TEPLITZ

A splendid sort; bright clear crimson; very sweet; flower fine form; very showy; a free bloomer.

MADAM CAROLINE TESTOUT

A grand rose, with large, full flowers and handsome buds which resemble the famous La France rose, but the color is clear, rich pink, finely edged with silvery rose. A strong grower and abundant bearer.

MARSHALL P. WILDER

Extra large full flowers; dark deep red; very strong grower and free bloomer; very handsome.

PERSIAN YELLOW

Flowers are double and deep golden yellow. This rose belongs to the Austrian Briar class. Hardy and makes an interesting addition to the rose garden.

MADAM CAROLINE TESTOUT

LYON

Flowers large, full and double, of remarkable substance, shrimp-pink, edges coral-red or salmon pink, shaded chrome-yellow. Exceedingly fragrant. Constant bloomer. Perfectly hardy.

PAUL NEYRON

Flowers of immense size; one of the largest roses grown and one of the finest; color deep shining rose, very fresh and pretty. It is a strong grower and remarkably free bloomer.

Baby Ramblers

Ever-blooming Dwarf Crimson Ramblers

In this variety we have the wonderful Crimson Rambler reproduced in dwarf or bush form, with this added quality that the Baby Rambler is a ceaseless bloomer. Indoors it may be kept in flower all the year round, and out-of-doors it

blooms continuously from June till after late frosts. In addition to the foregoing, these may be had in pink and white, known as Pink Baby and White Baby Ramblers. Very desirable for bedding and borders.

Moss Roses

Hardy, vigorous growing shrubs, thriving in a wide range of soil and climate. They require moderate pruning, or, if longer stems are required, at the sacrifice of many flowers they may be more severely cut back. The varieties we offer flower but once during the season.

BLANCHE MOREAU

Deep, pure white; flowers large and sweet, produced in clusters. Both flowers and buds are invested in a wealth of deep green moss.

CRESTED MOSS

Rose, or rose pink; flowers large and full, of exquisite form and substance; one of the most popular varieties.

PRINCESS ADELAIDE

Extra large flowers; double and sweet. Dark rose pink; lovely green moss.

SALET

Light rose; flowers flattened, very freely produced. Both flowers and buds are crested with moss.

Climbing Roses

CLIMBING AMERICAN BEAUTY

This variety retains the deep pink to crimson color of the same beautiful flowers of the bush American Beauty. It grows to a height of fifteen feet and produces hundreds of perfect blooms at one time. The foliage is very handsome, and as this rose is perfectly hardy it can be grown practically anywhere without winter protection. It is without question one of the handsomest climbing roses ever introduced.

Special Price: \$1.00 each.

BALTIMORE BELLE

Very double; blush white blossoms in large clusters.

CRIMSON RAMBLER

Glowing crimson flowers produced in great profusion in large, pyramidal trusses. A grand rose for porches or arbors or for training over a fence. One of the most popular varieties of the period.

DOROTHY PERKINS

Shell pink; extremely hardy, vigorous and a free bloomer, withstanding the most severe win-

ters. Shoots grow frequently ten to fifteen feet in one season. Flowers are borne in enormous clusters of thirty or forty. They are perfectly double, and excellently adapted for cutting and decorating.

FLOWER OF FAIRFIELD

A sport from the Crimson Rambler, which blooms at intervals during the summer until frosts.

QUEEN OF PRAIRIES

Bright pink flowers, full and compact, produced in profusion. Very hardy.

WHITE RAMBLER

White, sometimes with faint blush; flowers profuse and very fragrant, borne in large, compact clusters.

YELLOW RAMBLER

Light yellow, changing to straw color; very floriferous. The very double flowers are produced in large clusters, and continue to bear for three or four weeks.

Tree Roses

Tree Roses are produced by grafting on stems about four feet in length. They make most beautiful lawn decorations. The plants we offer this year are exceptionally fine, with good roots and well balanced tops. We have hardy Hybrid Perpetual varieties in the following colors: white, red, pink, or crimson.

Price: \$2.50 each.
